PRESS RELEASE

Baker Lake; Thursday Feb. 15, 1990

At a meeting held February 14 the Baker Lake Hamlet Council considered the question of Kiggavik, the proposed uranium mine west of Baker Lake.

It was decided that for Council to have a maximum influence representing Baker Lake on this issue it is important that Council make a public statement before the F.E.A.R.O. process ends. It is also important that this public statement is in tune with the view of the majority of the adults of Baker Lake.

With this in mind the Hamlet Council of Baker Lake has decided to hold a plebiscite on the Kiggavik question as soon as legally and administratively possible.

Mayor Garry Smith
